Rica D. Namoro
Software Developer

I have experience in developing and maintaining software and web applications, with expertise in databases, APIs, and software development tools. I have a strong background in collaborating with cross-functional teams to design, build, and optimize high-quality software solutions while ensuring timely delivery.

Work Experience

Web Developer
Cinnamon Experience
August 2022 – December 2024

- Developed and maintained an e-commerce website specializing in event ticketing and activities marketing.
- Wrote efficient and scalable front-end and back-end code using .NET framework.
- Integrated third-party APIs for seamless functionality and developed custom APIs to enhance system capabilities.
- Conducted extensive testing and debugging to ensure high-quality and error-free code deployment.
- Collaborated with cross-functional teams, including designers, developers, and testers, in an agile development environment.
- Ensured a user-friendly and responsive interface, optimizing for both desktop and mobile experiences.

Associate Systems Developer
Sumidenso Automotive Technologies Asia Corporation
March 2021– May 2022

- Developed and maintained local administrative systems, including HR, Finance, and Production systems, using .NET Framework (WPF, WinForms) with C# and VB.NET.
- Collaborated with management, department heads, and end-users to gather requirements and define system specifications.
- Designed, tested, and deployed applications to enhance business operations.
- Debugged, troubleshot, and optimized existing systems to ensure performance and reliability.
- Created technical documentation and user manuals to support system implementation and usage.

Educational History

Bachelor of Science in Computer Engineering
University of the Assumption
2015 – 2020

Relevant Skills

- **Programming Languages & Frameworks:** C#, SQL, HTML, CSS, JavaScript, Blazor, Bootstrap, .NET/Core Framework, Entity Framework, API Development
- **Software Development:** Data Structures and Algorithms, Agile Development Methodology, Testing and Debugging Techniques
- **Database Management:** MS SQL Server, PostgreSQL
- **Cloud Services:** Experience in Azure Services
- **Design & Prototyping:** Adobe Creative Suite (Photoshop, Illustrator), Figma
- **Development Tools:** Microsoft Visual Studio, Visual Studio Code
